

TREES *For* TRACKS

**SATURDAY, OCTOBER 10, 2009 • BALTIMORE, MD
8:30 AM TO 12:00 PM**

Alliance for Community Trees

As part of our commitment to Moving Tomorrow Responsibly, CSX is undertaking a monumental initiative – the planting of one tree for every mile of the 21,000 miles of track across our vast network.

Join CSX, City Year and the Alliance for Community Trees in our partnership to replenish more trees than those we must remove in order to keep tracks safe for passage. Trees improve air quality, offset carbon emissions, provide healthier environments for people and wildlife, act as noise buffers and add beauty to our world.

We have 30 slots to fill and we need your help, so sign up today! You are welcome to bring your spouse/guest or family members who are 16 or older (this is a great way for your High School students to earn community volunteer credit).

DRESS

Comfortable clothing suitable for tree planting and landscaping work. T-shirts will be provided.
